EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl I. Brundidge on 17 November 2004.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Fig. 13, item number (33) has been labeled as "phase rotator". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a demodulation circuit for demodulating a multilevel digital modulation signal. A search of prior art records has failed to disclose a demodulation circuit for demodulating a multilevel digital modulation signal comprising; "a training signal generator for outputting an either one of an in-phase component and a quadrature component signals of a training signal, the other one of which is zero, and a tap coefficient calculating unit coupled with said second equalizer, for outputting a tap coefficient value in comparison with said digital training signal from said memory and an output from said training signal generator and updating the tap coefficient of said second equalizer, and a phase rotator for rotating a phase of either one of an input signal and an output signal of said first automatic equalization unit, said digital training signal supplied to said memory and said updating signal outputted from said second equalizer" along with the remaining limitations of claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037. The examiner can normally be reached on Monday-Friday (8:00-5:00).
